Citi Foundation to Support Neighborhood Revitalization in Temecula Valley through Habitat for Humanity Inland Valley

Habitat for Humanity Inland Valley has received a grant in the amount of \$5,000 to assist with neighborhood revitalization efforts in the Inland Valley area. The funds will be directed toward the clean-up, repair and revitalization of homes through the agency's Helping Hands program.

Last year, over 50 low and moderate income families were impacted by the Helping Hands program. The program targets low income senior, disabled and other homeowners who are in need of repair or maintenance to their homes. The Citi Foundation donation will enable the local Habitat affiliate to complete 15 additional Helping Hands projects this year.

"We are so appreciative for the generosity of the Citi Foundation. They have been a loyal partner in our efforts to improve living conditions and it is an honor to work side by side with a company that truly cares about its community!" stated Tammy Marine, Executive Director.

For more information, contact Habitat for Humanity Inland Valley at (951) 296-3362 or check out our website at www.habitat4inlandvalley.org
